

# Feel good and stay safe

## Measures for your safety in our restaurants

*For the duration of your stay with us, we must ask you to comply with the rules for safe conduct issued by the Federal Office of Public Health:*

All of our in-house restaurants are open, and so is the Blue Bar. Tables are safely spaced at least 1.5 metres apart.

Please understand that our restaurant service will cease at 11 p.m. due to the protective measures imposed by the Federal Office of Public Health.

The maximum number of persons per table is 4. Families with children are exempt from this rule.

Due to capacity restrictions in our restaurants, we kindly ask you to reserve a table in advance, and to keep your reservation time.

Hand sanitizer dispensers are installed outside all of our restaurants and outside the Blue Bar. Please sanitize your hands before entering the restaurant and bar.

While waiting to be seated, guests must observe a minimum distance of 1.5 metres from other guests.

Touchless menu and wine list: Check the acrylic glass holder on your table for the menu CR code. Scan the code to retrieve the menu.

Trays, bill folders and credit card terminals are cleaned by us after every transaction.

Wherever possible, we refrain from the use of shared condiments. Upon request, we will gladly make salt and pepper shakers available to you.

Ask for protective gear at the reception.
